

By Paul Rardin

the year. A nomination committee for officers was named composed of Mrs. E. G. Newell of Lake Park; Mrs. R. E. Greene, of Lake Worth and Mrs. L. S. Funke, of West Palm Beach.

### PERFORMS MARRIAGES

Harold Rosenberg, who acts as a deputy for County Judge R. P. Robbins states that since he began issuing marriage licenses he has performed three marriage ceremonies for colored people.

## Cubs Take Trip To East Coast

Members of the Belle Glade cub pack of the Boy Scouts, last Saturday, accompanied by their parents, spent the day at West Palm Beach. The group first visited the WJNO radio station, then took in the General Motor exhibit at Anderson field, and at noon enjoyed a beach lunch at Palm Beach.

Fred J. Collier, who formerly operated skating rinks in Belle Glade and Pahokee, has now located at South Bay, with a portable rink outfit, which he has stationed just west of the Puckett store building.

company, a tract of saw grass land west of Twenty Mile Bend on Route 25, for fall developing of a new plant farm.

**REALLY DAY POSTPONED**

Due to repair work on Canal Point Methodist church Really Day has been postponed a week. It will be observed March 30th instead of March 23rd as previously announced. However, regular services will be held in the parsonage, weather permitting. we will

will not be effected until the new locks and spillway are fully ready for cross-state canal boat service. The cost on this new lock project has been around \$1,500,000.

When the counties were gobbling the gas tax in 1937, State Comptroller, J. M. Lee had the foresight to discern and the courage to pursue a course in the performance of his official duty, which had the virtue of being right and for the ultimate benefit of the public welfare, but was unpopular at the time, and subjected him to direct threats of political vengeance. The outcome vindicated his judgment, and the people registered at the polls their applause for his official integrity and statesmanlike courage. A triumph for our side in the struggle for clean government, as well as a personal victory for Col. Lee.—Apalachicola Times.

### A TIMELY WARNING

The special market bulletin received from State Director of Markets, William L. Wilson, and printed in this week's Florida Advocate carries much food for thought.

Mr. Wilson is concerned about the possibility of frozen foods and canned foods replacing fresh grown produce in the northern markets. We think he is justified in being alarmed about the situation, as it's an assured fact that those kinds of foods are making big inroads into the fresh produce market.

But Mr. Wilson sees a ray of light for the growers. He knows it's an accepted fact that the northern housewife will always buy the best, if she is able to afford it. There is at it. There is a lot of frozen foods on the market which makes a powerful appeal to the eye. It's beautiful and according to the reports from persons who have tested it, the looks are not deceptive. It's really the eating food. Mr. Wilson thinks Florida growers should use more care in packing and grading their produce. That, of course, means that the farmers should give good picks all the way through the crate and not just on top.

It's our opinion that growers should take heed of the warning extended by Mr. Wilson and do everything in their power to ward off the threat offered by frozen foods and canned foods.—Wauchula Advocate.

### LEGAL "HOUSE CLEANING"

That the Florida State Bar association is ready to do something to bring about bet-

ter efficiency and clarity in the law practice in the state is indicated by a statement from the association yesterday that the legislature would be asked to "put all lawyers into one association as a further step in the house cleaning now in progress."

Velma Keen, president, said his association will offer a legislative bill calling for an integrated bar for Florida. This bill, he said, will authorize the state supreme court to organize and supervise one association, to which all lawyers must belong. Such an association, he added, will be able to weed out the "shysters" and prevent the spread of unwholesome practices in the profession.

"The supreme court recently adopted a new code of ethics for Florida lawyers and judges, to become effective April 1, that paves the way for the integrated bar," said Keen. "In that code are set out so clearly that none can misunderstand just what duties the lawyer owes to his client and just what the public and the lawyers may expect from the judges. This is a great advance for the legal profession of this state. The next step is to have an integrated bar so that these rules, or code of ethics, can be enforced. The bar association of this state is asking the legislature to make this discipline possible."

The association will also ask from the legislature the power conferred on the supreme court to junk the old common law system, now in effect and adopt streamlined civil procedure patterned after the new federal procedure. The court declined last fall to order a change without fulfillment of legislative authority.—Titusville Star-Advocate.

### FLORIDA'S YOUNG LEGISLATORS

Thanks to some interesting research by Prof. Victoria Schuck of the Florida State College for Women, we have some definite data about the youthfulness of the men who will sit in the next session of the Florida legislature.

The report reveals that 11 members of the house are under 29 years of age, 36 are between 30 and 39, 19 are from 40 to 49 and 21 are between 50 and 59. The remainder are 60 or older.

Forty-seven per cent of the 95 members of the house were born in Florida. Thirty-six of them are serving their first term, 29 are serving their second term and 20 already have served at least two terms.

It is just as well that the law-making body soon to convene is to have a preponderance of young men. All the signs just now point toward a tough and stormy session, and physical stamina and youthful courage will be required along with mature judgement and conservatism, weighing.—Lakeland Ledger.

### Visits Old Home

Alto Watford, Jr., son of Mr. and Mrs. Alto Watford, Sr., has returned to spend a vacation at his old home in Okeechobee, after having spent four years in the U. S. Navy, mostly with the fleet in the Pacific waters. He was discharged from the service at San Diego, Cal., but he has three months left which to make up his mind whether or not he will re-enlist for further naval duty.

### VISITS PAHOKEE

W. A. Cook, of the Imperial Gas company, is spending a short time in Pahokee looking after business interests. Mr. Cook is operating a big station at the entrance of Camp Blanding at Starke.

### Improve Field For Summer Play

Improvements on the base ball diamond at Balemian field in Pahokee, are now under way and the playing field will be made superior to that of the former ones. Just what teams will use the field this year is not yet determined, possibly one or more, as the Lions and the Ramblers are also likely to be action again. Improvements on the grandstand are also contemplated.

### PIPE LINE

Government financial agencies have finally decided to kick in with money to build a fresh water pipe line from Homestead to Key West. It will be an 18 inch water main and the cost-will be around \$3,000,000 and the service will be for military and civilian use. The

Navy is to have charge of the construction of the water line.

### Visitor List Is Larger At Clewiston

More people have visited the sugar house at Clewiston so far this season than in any other sea-

son, the number now exceeding 20,000 people, and some six weeks of operation still ahead. This exceeds the record of 1940 by three thousand. With the opening of Thomas E. Will Memorial highway it is expected that thousands more will make their return trip over that route so they can visit the big American sugar plant.

### Nursery School For Sand Cut Camp

The proposed new migrant camp at Sand Cut is to be provided with a nursery and school, similar to those which have been constructed at the other migrant camps in the Glades. Plans are being made

for the erection and equipping of a large canning plant at Camp Ocoee, where the residents will process surplus vegetable supplies to be furnished by farmers. It will also give opportunity for workers to learn a trade which will be handy in migration, especially visit canning centers.

## "I get Double Range Anti-Knock!"

Every motorist knows that there are two important ratings of acceleration where highest anti-knock performance is needed. For example, you need knockless power at 10 to 45 miles per hour for acceleration in traffic and 45 to 90 miles per hour for passing other cars and climbing hills. Some gasoline may give high anti-knock in one range but not in the other. But the new Sinclair H-C combines high anti-knock performance in both ranges.

With the Double-Range anti-knock in H-C you also get other remarkable qualities in performance. You get quick starting—rapid pick-up—smooth power—and long mileage.

Try a complete tankful of the new Double-Range H-C in your car today. Your nearby Sinclair dealer sells it at regular price. You will find it adds to the pleasure of driving and helps reduce motoring expense as well! Ask for the new Sinclair H-C.

## New SINCLAIR H-C

For performance, no gasoline at regular price is superior to the new Sinclair H-C.

### FULLER'S FULMINATIONS

by Fuller Warren

There is no more marvellous and humane institution on earth than the hospital. Having served several sentences in the hospital in recent years, I am in position to know something of the tender care, patience and solicitude that hospital attendants accord patients. If angels are as gentle, kind and considerate as the nurses I've known, then heaven is truly the happy and hallowed place that we hope, and believe it is.

Feeling as I do about hospitals, I am proud and grateful that our State provides so many and such good hospitals for those pitiful and pathetic people who are unable to provide private hospitalization for themselves.

No kind of affliction or suffering makes quite such an appeal to a person's sympathy and pity as a crippled child. Our State is doing well by its crippled children. Last year the Crippled Children's Commission spent \$152,154.03.

There is no sadder kind of sickness than insanity. No affliction more completely disorders and disables its victims than insanity. The helpless and hapless victims of this dread malady is utterly unable to sustain himself. He is denied even the comforting hope that he will someday be cured. He is not a theologian, but I suppose an insane person is deprived of the sustaining solace of religious faith.

I am glad that our State is making such a fine effort to provide for these pathetic unfortunate. Last year a total of \$1,105,583.45 was spent by the State for the operation of the Florida State Hospital at Chattahoochee. But this is not near as much as should be spent. The asylum is frightfully over-crowded with patients. Insane persons are compelled to languish in preles, and even months, in detention-jails before they can secure admission to the asylum. Why it is not much harder for a girl to get into Vassar College.

If any affliction is more pathetic than insanity, it is feeble-mindedness—an affliction that begins at birth and goes to the grave. Some of the better-drawn families who suffer the sorrow of having a feeble-minded child turn to them and say: "I wish I were a poor devil, a private sanatorium. But, most poor people try to get their children who are afflicted in this

manner admitted to the Florida Farm Colony at Gainesville.

Last year the State spent \$150,471.22 on this institution.

Recently Dr. J. Maxey Dell, who is the kindly, humane and efficient Superintendent of the Florida Farm Colony invited me to come down on a Sunday afternoon and address the inmates of the Florida Farm Colony. It is not generally known, but the fact is, that I have done quite a lot of speaking in my time. I have spoken at funerals, at social gatherings, at a fashion showing. But in all my long, loud and exasperating career as a public speaker I had never before been called upon to address an audience wholly of feeble-minded persons. (Although several times when given the "honors cheer" I have tried to kid and comfort myself with the belief that there were quite a lot of such persons in the audience.) I was in a quandry as to just what kind of a speech would be appropriate for such an audience. So I wrote Dr. Dell and asked him to please let me know what kind of a speech I should make to the inmates of the Florida Farm Colony. Dr. Dell wrote back promptly that he thought that my usual type of speech would be just the thing for that audience. If that means what it sounds like it means, the warm friendship that has existed between Dr. Dell and myself for more than fifteen years may grow cold.

The sum of \$314,377.40 was spent last year on the State-Tuberculosis Sanatorium at Orlaud. I had planned to tell you this week about the cost of the University of Florida, the State Prison, the F. S. W. C. and the A. & M. College, but I have used up all the space I have the heart to ask this generous journal to grant me this time. Next week, I will go into these and other matters, such as expenditures for schools.

Selah! (A word of uncertain meaning, but used frequently by the pious patriarchs of the Old Testament at the conclusion of a highly important message.)

A tax on auto trailers had a lot to do with salt water fishing was suggested as possible new revenue by the Sarasota County Legislative Advisory Council.

## Free Seeds At Azucar Station

A large quantity shipment of seeds of a rare new variety developed by David Burpee of Philadelphia, was received today by U. S. Sugar Corporation Service Station at Azucar.

The new flower, named the Isabelle Firestone Margold in honor of Mrs. Harvey S. Firestone, was recently introduced to the garden world at the Waldorf Astoria Hotel in New York City.

"The seeds are not for sale, but will be distributed without charge to members of garden clubs and others who are interested in horticultural work," says J. S. Atkin of the U. S. S. C. Service Station. "To procure a free 25-cent packet of Isabelle Firestone Margold seeds, it is only necessary to call at the station at Azucar. There are no obligations and it is not necessary to make a purchase in order to obtain a free packet."

Development of the Isabelle Firestone Margold is another of the sagas of the well known Philadelphia hybridizer, Burpee. First production was accomplished by patient handwork with a small camel hair artist's brush. After first experimental successes, seed production was expanded by putting hives of bees in the field to pollinate on a large scale basis.

## BEWILDERED HOURS Two Speakers

Members of the Everglades Business and Professional Woman's club met at the home of Mrs. T. J. Tamm in Palm Beach for its semi-monthly meeting. The program committee presented two speakers, Miss Mary Garry, a lawyer, of West Palm Beach, who spoke on "Government Procedure" and Mrs. Nell Johnson, of Boca Raton, who talked on "A Valuation of Government Service". The club will hold its next session on March 31, instead of the regular date of April 1st, at which time election of officers will take place.

## Special Nights For Race Course

With only 16 more nights of the meeting which closes April 10 remaining, fans attending the greyhound races at the Palm Beach Kennel club during the last two weeks can expect spectacular racing and spectacular prices.

As the close of the meeting draws near, the crowds have been introduced to the races and a result the prices paid by the daily double and quinella have been extremely large.

Another quinella was added during the last week when, in addition to the fourth, sixth, eighth and tenth races, the first race was made a quinella race.

On Monday night one quinella paid \$335.00 and was followed by other large ones during the week. Many special nights are planned for the closing nights. The Derby eliminations will start this week and according to Racing secretary Allen Mackie, the Derby this year will attract the largest field in its history. The Derby is the longest distance the dogs are asked to run and is always spectacular.

Eleven races are staged nightly rain or shine, except Sunday. Night time for the first race is 8:15 o'clock and the eleventh race is usually completed at 11:30 o'clock thus permitting the players to reach home before midnight.

## BIRTHDAY PARTY

Mrs. and Mrs. W. G. Williams of Miami were week-end guests of their daughter, Mrs. Demp McClelland. On Sunday, the McClelland and Williams families attended a family surprise birthday party at the home of Mrs. R. H. Ratoff, at Belle Glade, on the canal. Mrs. Henry Fralin, of Pahokee. Some 40 family relations participated in the event. Mr. and Mrs. Williams were accompanied home by Mrs. and Mrs. Judson Ford, of Canal Point, who were married at Okeechobee on Saturday night, where they will spend their honeymoon.

## Young Bussey Gets Appointment

Samuel T. Bussey, son of Editor and Mrs. A. S. Bussey, of the Palm Beach Sun, an honor man at West Palm Beach High in 1940, and now a freshman student at the University of Florida, won a cadet appointment to the Naval Academy at Annapolis as a result of high rating in his entrance examinations. Congressman Pat Cannon, of the Fourth Congressional District, made the appointment of young Bussey. Samuel comes from a military and naval family on his mother's side of the house. His elder brother was in navy engineering work for several years, and is now in similar designing work for a private corporation in New York.

## Fair Committee Is—

(continued from page 1)  
post. Foot bridges will be placed across the low ditch at the rear of the fair grounds, so that motorists can have easy access to their cars, if parked on the dikes.

As the fair comes at a time when thousands of motorists are leaving for their northern homes, with the knowledge that there will be short cut routes over both east and west lake routes for northern points, it is believed that many will take this route back home and visit the attractions of the Glades region. To help this plan out the Chamber of Commerce at Ft. Lauderdale has contracted for substantial signs along the routes. The sign in each town will bear historical legend of the town, and the points of attraction.

Another quinella was added during the last week when, in addition to the fourth, sixth, eighth and tenth races, the first race was made a quinella race.

On Monday night one quinella paid \$335.00 and was followed by other large ones during the week. Many special nights are planned for the closing nights. The Derby eliminations will start this week and according to Racing secretary Allen Mackie, the Derby this year will attract the largest field in its history. The Derby is the longest distance the dogs are asked to run and is always spectacular.

Eleven races are staged nightly rain or shine, except Sunday. Night time for the first race is 8:15 o'clock and the eleventh race is usually completed at 11:30 o'clock thus permitting the players to reach home before midnight.

## Snakes Disappear At Mayaca Farms

There was no section of Palm Beach county between 1924 and 1938 that had a larger snake population than the large snake farm at Mayaca, and to prove this there is an exhibit in this Bessner Corporation's office at Port Mayaca, to substantiate the claim. There is one wall panel which contains the claim of a mammoth diamond snake rattler, and around it arranged a collection of rattles, snake rattlers of various sizes.

Record shows that the largest rattlesnake killed on the Kautz farm was one measuring 8 feet long. In one den hunters killed 31 snakes around 18 inches long, and the old mother which carried 31 rattlers and a button. A mammoth black or gopher snake nine feet in length is also displayed.

A record map shows that during a decade up to 1938 the following amount of game and reptiles were captured around Port Mayaca: 5,964 rabbits, 10,598 fish, 538 ground snakes, 346 diamond back rattlers, one ground rattler, 9,198 grass and black snakes, 3,780 water moccasins, one cotton mouth moccasin, 649 possums, 320 hawks, 53 wild cats, 88 house cats, 280 skunks, 10 owls, 12 crows, 50 coons and 1 fox.

The past few years there have been fewer snakes killed but each year a considerable number of rattlers are dispatched, mostly by the Kautz boys, on their daily farm.

## HANDLES PERMITS

Principal L. W. Bartlett, of the Belle Glade schools, who is handling birth certificate permits for those who desire to work states that he has already issued 50 such permits and has also placed a number of children back in school who had been working without permits and were not eligible to receive them.

The second annual meeting of Retired Railway Employees opened at Lakeland Thursday. The meeting will continue for four days, March 29th to 31st.

By June 1, 1941, the Federal government will have spent \$148,500,000 on the national defense program in Florida.

Nearly \$40,000,000 will be spent this year by Southern Bell for new construction and general expansion to meet the South's increasing telephone needs. New central offices, buildings and local and long distance lines are being put into service, and the net gain in new telephones is expected to reach 115,000 this year.

Aware of the telephone's vital part in national defense, thousands of telephone men and women are devoting their efforts to supplying the nation's needs of communication and industry.

## Holland Offers A Plan To Finance State's Highways

Will Be Considered By Incoming Legislature In April

Tallahassee, March 29—Gov. Nor Holland has offered a new road financing plan by combining the "4-2" part of a Road Department proposal, a vetoed bill of the 1939 Legislature and a suggested constitutional amendment.

Giving the Road Department one-third of each of the three cents gasoline tax which now goes to counties, leaving two cents for reimbursement of the counties for roads they contributed to the State system. "Two cents now produces almost as much revenue as three cents did in 1931, when the present system became effective."

Rewriting, to include county roads which are vital links of the State highway system but have not been designated State roads, the 1939 Legislature's Senate Bill 1217, which contained the present system of giving county credits for roads they turned over to the State.

Preparing a constitutional amendment designed to put a State guarantee, and possible lower interest rates, behind county and district road bonds by allowing use of not more than two cents of the present seven-cent gas tax for refunding county and district road and bridge bonds.

Redesigning what constitutes a surplus in gas tax funds, according to counties. He pointed out that a law enacted in 1939, giving the Road Department 80 per cent of the counties 20 per cent of the surplus gas tax money after county debts had been paid, had been interpreted by the courts as meaning there would be no surplus unless enough money was on hand to meet all debts. He said the Legislature meant for the 80-20 division to apply when current debts were paid.

Senate Bill 1217, which was vetoed along with companion bill, 1216 by then Governor Clegg, will come up next month for consideration of the veto.

## Erect New Hall

The Pahokee Carpenter's Union this week took out a building permit for the erection of its new hall which will be built on Barfield road. The work is to be completed by the end of the month and the new hall will be a two-story building with club and lodge rooms on the second floor and living apartments on the ground floor.

With all members of the council as well as city officials present the Pahokee city council at its Friday night session ground out considerable business.

Bert Lapp, manager of the Everglades fair, appeared before the council and proved himself a good salesman, as he closed for a \$250.00 advertising contract space for the fair program.

Council passed a resolution providing for the signing of the \$35,000 city hall bonds, and for their advertising. Bids for purchase will be opened at 8 o'clock on April 4th.

Solicitor Thaddeus Whitten reported to council that a jury had awarded Mrs. Ollie Autman, a \$300 judgment for personal injuries sustained in a fall on a defective sidewalk in front of the post office building, and that he had filed a motion for a new trial.

Council found it was necessary to re-roof the cemetery building at the Port Mayaca burial ground with a new metal roof. Bills ordered were Pahokee Drainage district taxes, \$11.42; Pahokee Plumbing Company, \$175.89 for work done for the city and the water works departments, over the past two years; the account for Everglades Drainage District taxes, of \$110.50, was tabled for later action. J. C. Tabb was paid \$8 for special police work during the period of illness of the two regular police officers.

After many weeks of consideration the new garbage ordinance was introduced and passed on its first reading by title only. Tentative fees were fixed for resident service at \$6 a year, payable in advance quarterly at the city clerk's office. Business houses receiving daily pickup services will be required to pay \$1 a week, and other business places on a graduated scale according to service rendered. Suitable metal receptacles for garbage must be provided, council to prescribe the type, number and location of such cans. Those not paying promptly for service, will not receive the benefits.

Will Address Endeavor Groups

D. Charles Davies of Pittsburgh, Pa., special representative of the International Society of Christian Endeavor who is in Florida for ten weeks of service with the Florida Christian Endeavor Union, will be in Palm Beach District for six days starting March 22.

While in Palm Beach District he will address Endeavors of Palm Beach, West Palm Beach, Port Pierce, Lake Worth, Belle Glade, Clewiston, Delray Beach, Canal Point, Moore Haven, Okeechobee, Pahokee, Stuart, Jupiter, Riviera, Lakeport and other towns in the district.

During the past eight months Davies has traveled through the New England states, New York, Pennsylvania, Maryland, Washington, D. C., Michigan and Ohio in the interests of Christian Endeavor. He is a graduate of Carnegie Tech.

The Government unexpectedly jumped its price for grapefruit from \$7.50 to \$8.50 a ton under its juice program and announced that \$258 tons would be purchased this week.

Report Splendid Fair Co-Operation

Bert Lapp and Guy Stovall, who are the major donors for the Everglades fair at Pahokee, spent the past week in the sections north as far as Gainesville. These men report phenomenal success in South Florida, and that apparently every city will have big motorcades coming over the new Thomas E. Will Memorial highway on April 11th, for official ceremonies at Twenty Mile Bend on the New River Canal and at the Pahokee fair.

Garbage Ordinance To Become Law In Town Of Pahokee

## State Attorney Is Rote Speaker

State Attorney Phil O'Connell was guest speaker at the weekly meeting of the Pahokee Rotary club yesterday. Mr. O'Connell chose for his subject: "Our Obligation to Youth."

In his usual interesting manner the speaker pointed out the many obligations owed by parents to their children. His speech was warmly received by the members and visitors. B. Elliott was in charge of the day's program and presented the guest speaker.

Will Address Endeavor Groups

D. Charles Davies of Pittsburgh, Pa., special representative of the International Society of Christian Endeavor who is in Florida for ten weeks of service with the Florida Christian Endeavor Union, will be in Palm Beach District for six days starting March 22.

With all members of the council as well as city officials present the Pahokee city council at its Friday night session ground out considerable business.

Bert Lapp, manager of the Everglades fair, appeared before the council and proved himself a good salesman, as he closed for a \$250.00 advertising contract space for the fair program.

Council passed a resolution providing for the signing of the \$35,000 city hall bonds, and for their advertising. Bids for purchase will be opened at 8 o'clock on April 4th.

Solicitor Thaddeus Whitten reported to council that a jury had awarded Mrs. Ollie Autman, a \$300 judgment for personal injuries sustained in a fall on a defective sidewalk in front of the post office building, and that he had filed a motion for a new trial.

Council found it was necessary to re-roof the cemetery building at the Port Mayaca burial ground with a new metal roof. Bills ordered were Pahokee Drainage district taxes, \$11.42; Pahokee Plumbing Company, \$175.89 for work done for the city and the water works departments, over the past two years; the account for Everglades Drainage District taxes, of \$110.50, was tabled for later action. J. C. Tabb was paid \$8 for special police work during the period of illness of the two regular police officers.

After many weeks of consideration the new garbage ordinance was introduced and passed on its first reading by title only. Tentative fees were fixed for resident service at \$6 a year, payable in advance quarterly at the city clerk's office. Business houses receiving daily pickup services will be required to pay \$1 a week, and other business places on a graduated scale according to service rendered. Suitable metal receptacles for garbage must be provided, council to prescribe the type, number and location of such cans. Those not paying promptly for service, will not receive the benefits.

Will Address Endeavor Groups

D. Charles Davies of Pittsburgh, Pa., special representative of the International Society of Christian Endeavor who is in Florida for ten weeks of service with the Florida Christian Endeavor Union, will be in Palm Beach District for six days starting March 22.

While in Palm Beach District he will address Endeavors of Palm Beach, West Palm Beach, Port Pierce, Lake Worth, Belle Glade, Clewiston, Delray Beach, Canal Point, Moore Haven, Okeechobee, Pahokee, Stuart, Jupiter, Riviera, Lakeport and other towns in the district.

During the past eight months Davies has traveled through the New England states, New York, Pennsylvania, Maryland, Washington, D. C., Michigan and Ohio in the interests of Christian Endeavor. He is a graduate of Carnegie Tech.

The Government unexpectedly jumped its price for grapefruit from \$7.50 to \$8.50 a ton under its juice program and announced that \$258 tons would be purchased this week.

Report Splendid Fair Co-Operation

Bert Lapp and Guy Stovall, who are the major donors for the Everglades fair at Pahokee, spent the past week in the sections north as far as Gainesville. These men report phenomenal success in South Florida, and that apparently every city will have big motorcades coming over the new Thomas E. Will Memorial highway on April 11th, for official ceremonies at Twenty Mile Bend on the New River Canal and at the Pahokee fair.
